

# Jo Walton

SEMI PERMANENT MAKEUP

## AFTERCARE INSTRUCTIONS

Your skin will be temporarily sensitised after the treatment and you should adhere to the following instructions for the next FIVE days. This will help avoid infection and will allow your skin time to recover

- **Do NOT** apply make up to the treated areas for 5 days following your treatment
- Cleanse the area with water and a clean cotton bud
- Apply vitamin A&D cream 3 times a day for 5 days using a clean cotton bud (eyebrows and lip treatments only)
- Healing will take up to one week, and it is perfectly normal for there to be small scabbing on the treated areas, which will fall off in a couple of days **DO NOT PICK**
- It is also normal for the colour to fade by up to 70% during the 2 weeks after the treatment

During the post treatment period, please avoid the following

- Touching the treated area(s) with your fingers
- Using soaps, cleansers, creams or make up on the treated area(s)
- Having any treatments on the face in the next 5 days
- Using abrasive products, rough towels, or similar
- **DO NOT TOUCH OR PICK** the small scabs that may appear after the treatment
- Any heat treatments such as saunas, steam rooms as the treated area(s) should be kept as dry as possible
- Exposure to the sun or swimming
- Using any form of bleach or depilatory products
- No Botox/fillers for 6 weeks

Should an infection occur, seek medical attention

Aftercare procedures have been explained to me in detail and I have read the instructions given in this leaflet, I have also been given a copy of these instructions to keep for reference

I certify that the information I have given including client consent, medical history and aftercare procedures is accurate and I know of no reason why I should not proceed with the **treatment**
